

VOCE

Overview

How do the VOCE tools work together?

Each tool answers a different question. Documents and evidence connect the analysis of an architecture to its controls and later reassessment.

01 Corpus

02 Atlas

03 Agent Infrastructure

04 Agent Conformance

05 Human Cognitive Assurance

06 ARGOS

Overview; detailed steps are available in the PDF.

These tools support an examination. A documented relationship, a recommendation and an operational test provide different kinds of support.
